

## DELEGATIONS OF AUTHORITY

The Board of Directors delegates authority as necessary for effective governance of the academic and corporate aspects of the institution as well as the facilitation of the smooth day-to-day operations of the institution by senior management.

Every three years, the Board of Directors undertakes a formal review to assess the currency and effectiveness of its Delegations of Authority in order to identify any improvements that might enhance the overall effectiveness of the organisation's corporate and academic governance.

These delegations stipulate the key decision-making authorities in order to ensure the effective governance of the institution. In the event of any inconsistency between the content of these delegations and the content of any policy or procedural document, then the content of these delegations will prevail.
